

November 9, 2007

All members were present except USC and St. Augustine

Chapman University (nee Children's) is planning a celebration of 80 years of continuing PT program existence for Spring, 2008. More information will be forthcoming.

The fifteenth year anniversary for Western University was a success, and featured Shirley Sahrman as the main speaker.

Western University is recruiting for a faculty position in the area of Kinesiology/Cardiopulmonary. CSULB is still looking for a faculty member in the area of Kinesiology/Biomechanics. CSUN is looking for a faculty replacement for George Wolfe (we will miss you George), to teach in the area of modalities, electro, wound care, and basic Pt management.

Congrats to Sheryl Low for two tremendous accomplishments, she has been elected to the CPTA Nominating Committee, and her article on "Supporting Student Learning During Physical Therapist Student Internships Using On-line Technology" will be published in the Journal of Physical Therapy Education in Spring, 2008.

IACCC and Loma Linda University sponsored a successful Credentialed CI course this month graduating 40 newly credentialed CIs. IACCC is beginning the planning of the next offering for March/April at CSUN. More information will be available soon. If there are other centers who would like to host a course, contact any IACCC member.

Commencing with these minutes, IACCC will publish the minutes of the Clinical Education Forum. Please see the back of this sheet. These minutes reflect the clinical education work of CCCE's from various facilities. Attendance at meetings is open, and the next meeting time is published in their minutes.

The next IACCC meeting will be January 11, 2008 at 9 am at Azusa Pacific. Happy Holidays to all and to all a good night.
