

January 11, 2008

All members were present except CSUN

Azusa Pacific has openings for two full time faculty members, contact Dr. Michael Laymon if interested.

IACCC is looking into having a job faire in late spring. More information will be forthcoming when established.

University of St Augustine passed the on-site CAPTE accreditation visit for an expansion program.

Chris Sebelski previewed the new Clinical Education Webpage which looks fabulous. IACCC Centers will be listed with their CSIF's, and centers will be able to update them as needed. There are many other uses that will greatly ease the data collected and used by IACCC ACCE's. Hats of to Chris for an excellent job

A brochure for a CI Credentialing Course is enclosed. The course will be held at CSUN on March 29th and April 5th. If you are interested in attending please download the dossier at iaccc.net, then send the dossier, a copy of your state license, the registration fee, and a copy if your APTA membership card (if applicable) to Dorcas Tominaga.

If you would like IACCC to sponsor you for this Credentialing Course, let any member know. We are prepared to pay for at least one person to attend.

Hopefully, there will be another CI Credentialing course to be held in the San Diego area in late June. More details will be announced in the near future.

IACCC is looking for training ideas for our next 28th Annual Combined IACCC/CEF meeting. Please give your ideas to any IACCC representative.

The next meeting will be at 9 am on February 22, 2008 at Azusa Pacific University
